DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Regarding claims 1-13, the phrase "may be" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Allowable Subject Matter

4. Claims 1-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is an Examiner's statement of reasons for the indication of allowable subject matter: The prior art of record does not disclose, make obvious, or otherwise suggest the structure of the applicant's method, system, and medium of accepting and recording SQL statements and recording the status of a session of

use of the database comprising: obtaining a hash value for each SQL statement;
obtaining the current session status corresponding to each SQL statement;
recording a timestamp at the time the session status is obtained; repeating the
obtaining steps and the timestamp recording step at a plurality of intervals; and
calculating the run time for each SQL statement based upon the obtained SQL
address and hash value, the timestamp and upon the current session status
together with the other limitations of the independent claims. The dependent claims
being further limiting and definite are also allowable.
